### **Abstract**

This study plans to portray the microbiological defilement (*Escherichia coli*) in the neighborhood refreshment of Timorese people group in Naimata sub-locale, Kupang city. Three white laru tests were taken from various venders and broke down at the Technical Implementation unit of NTT Province Health Laboratory. The consequences of the investigation showed that the white laru tests are liberated from microbial defilement of *E. coli* though other microbial tainting in the bundling has surpassed the most extreme breaking point dependent on Indonesian National Standard (SNI). Laru contains various natural acids, amino acids, and alcohols. The lab results showed that microbial defilement in the bundle of the white laru dependent on the most elevated TPC was found in the third white laru vender with the measure of germ of 1391.5 states/ml, while the most reduced was the vender number two with the measure of germ of 250 states/ml.

### **Keywords**

Laru, Contamination

### **Journal Policies**

The Journal of Drug and Alcohol Research agrees to the ethical guidelines of the Farmington Consensus developed by the International Society of Addiction Journal Editors (ISAJE), the policies of the International Committee of Medical Journal editors (ICMJE), and the editorial guidelines of the Council of Science Editors (CSE).

The corresponding author should submit the manuscript through the online Manuscript Online Submission using only Word (.doc, .docx, .rtf) files.

### **Aims and scope**

The Journal of Drug and Alcohol Research (JDAR) is a scholarly open access, peer-reviewed, and fully refereed journal dedicated to publishing sound papers on advances in the field of drug, opiate, nicotine and alcohol abuse, social science for impact use, drugs, smoke and alcohol both basic and clinical. The journal will consider papers from all sub-disciplines and aspects of drug abuse, dependence and addiction research. Manuscripts will be published online as soon as they are accepted, which will reduce the time of publication. Because there are no space limitations or favored topics, all papers, within the scope of the journal, judged to be sound by the reviewers, will be published.
